

## The Belgian regions of provenance

Two maps of the Belgian regions of provenances are drawn up. Each map shows a different division defined for a specific group of species.

### Division 1:

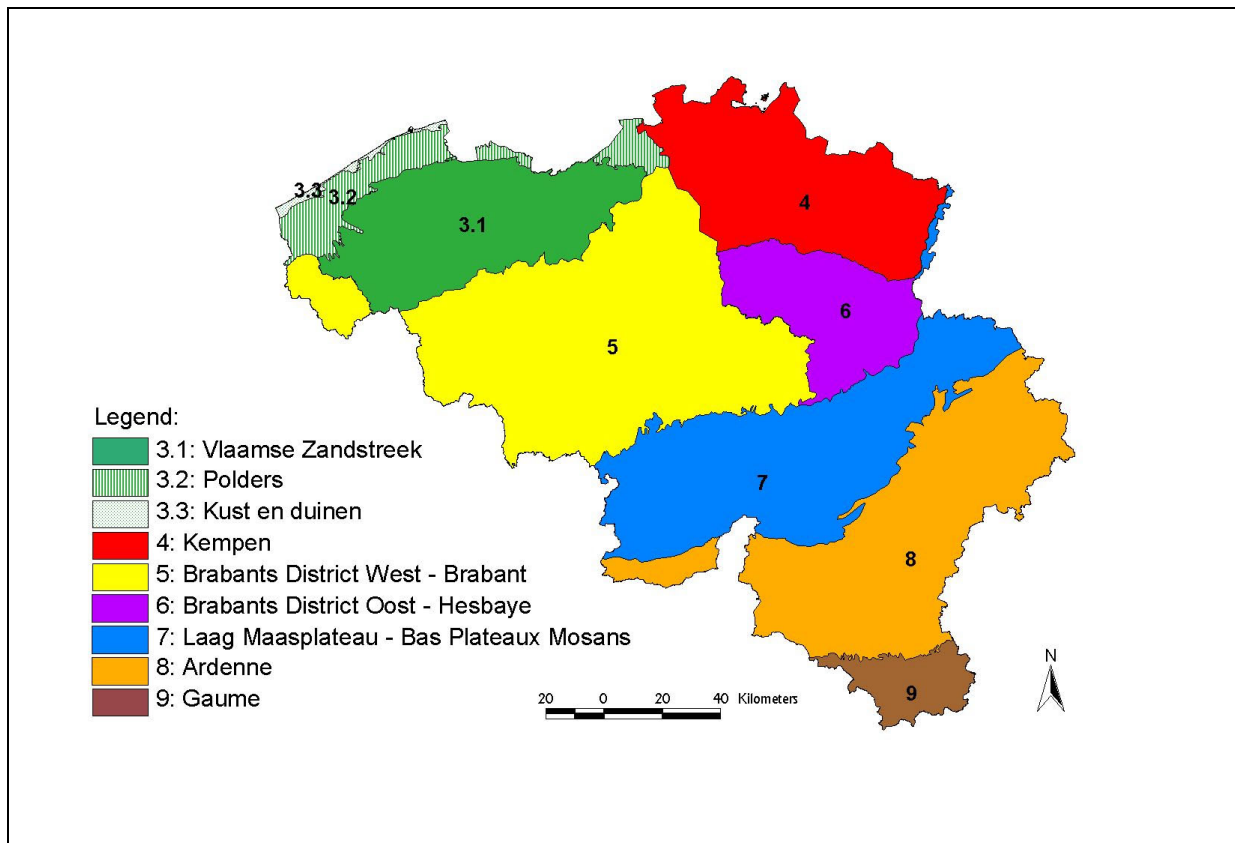

List of species:

*Abies alba* Mill.  
*Abies grandis* Lindl  
*Acer platanoides* L.  
*Acer pseudoplatanus* L.  
*Alnus incana* Moench.  
*Carpinus betulus* L.  
*Castanea sativa* Mill.  
*Larix decidua* Mill.  
*Larix x eurolepis* Henry  
*Larix kaempferi* Carr.  
*Picea sitchensis* Carr.

*Pinus nigra* Arnold  
*Pinus sylvestris* L.  
*Populus spp* et hybrides artificiels  
*Pseudotsuga menziesii* Franco  
*Quercus pubescens* Willd.  
*Quercus rubra* L.  
*Robinia pseudoacacia* L.  
*Sorbus torminalis* (L.) Crantz<sup>1</sup>  
*Thuja plicata* Donn ex D. Don<sup>1</sup>  
*Tilia cordata* Mill.  
*Tilia platyphyllos* Scop

<sup>1</sup>: species added in accordance with art. 3 point 2 of 1999/105/EG.

## Division 2:

### List of species:

*Alnus glutinosa* Gaertn.  
*Corylus avellana* L.<sup>1</sup>  
*Crataegus monogyna* Jacq.<sup>1</sup>  
*Betula pendula* Roth.  
*Betula pubescens* Ehrh.  
*Fagus sylvatica* L.  
*Fraxinus excelsior* L.

*Picea abies* Karst.  
*Prunus avium* L.  
*Prunus spinosa* L.<sup>1</sup>  
*Quercus petraea* Liebl.  
*Quercus robur* L.  
*Rhamnus frangula* L.<sup>1</sup>  
*Sorbus aucuparia* L.<sup>1</sup>

<sup>1</sup>: species added in accordance with art. 3 point 2 of 1999/105/EG.
